

# A Manifesto for the 99% - Proposed Solutions and Priorities for a Complicated World

Great for anyone who wants a quick overview of some of our most serious problems with concrete solutions. More specifically, Manifesto for the 99% - Proposed Solutions and Priorities for a Complicated World sets forth 20 proposed solutions to current problems faced by Americans, with these 20 solutions divided into 8 parts. These 20 solutions are suggested thinking points, starting places, and hopefully the community discussion that ensues around each solution will generate new ideas and answers expressed in a constructive manner. This book does not purport to speak for the 99% (or any percent) - rather it is the intention of this book to be of service to the 99% and all Americans, to help us crystallize our thoughts and express our goals in the vocabulary of a complex world.
