

Accounting Quick & Simple: A Non-Accountants Guide to Basic Accounting

Do you fear accounting? Are you dreading your first highschool/college accounting course? Is your career suffering because you do not understand the basic principles of accounting? Do you want to start your own business but are afraid because you do not know accounting? The world of accounting does not have to be scary and it does not have to be difficult to learn. Regardless of whether you are a high school / college student wanting to get a head start before enrolling in your first accounting course, a business person looking to understand accounting better to go further in your career, or a layperson interest in this wonderful subject, this course is for you. The conversational, story-based narrative, is not only informative, but breaks down accounting into simple, easy-to-learn concepts. Just by reading through this text you will learn the basics of accounting. Whether you want to continue on with a degree in accounting or just want to get a grasp of the subject to better your work and life this course is for you. Follow a man named Steve while he learns the basics of accounting on his own journey to opening a brand new business. Then follow along day by day as Steve's business begins to grow and you -along with Steve- get to put your new knowledge to use. This book is designed to be as different from a textbook as possible. The conversational style is engaging and learning takes place without even realizing it. You will not get bored and fall asleep reading this book. Topics include: What is Accounting Business Structures Cash vs. Accrual Basis of Accounting Single vs. Double Entry Methods Debits and Credits Accounting Period Financial Statements How its done ... and much more!
