

Blue Moon (The Blue Crystal Trilogy (Book One) 1)

Forget vampires, he laughed dismissively. Who wants to drink blood for eternity? What we have discovered is far more seductive and a great deal more dangerous. When 17-year old Emily Morgan meets beautiful but strange Theo de Lucis, there is an immediate attraction between them. But what is his secret? What ancient link ties him to Emily? And what is the significance of the Blue Moon Ball? As Emily is drawn irrevocably into the glamorous and mysterious world of the de Lucis family, so she is forced to change every perception she has ever had about life, love, aging and death. The truth is terrifying and the consequences unthinkable in this supernatural horror story, based on society's obsession with aging and the desire for eternal youth.
