

## Traces of a Hidden Tradition in Masonry and Medieval Mysticism: Five Essays (Classic Reprint)

Excerpt from Traces of a Hidden Tradition in Masonry and Medieval Mysticism: Five Essays The series of sketches which are now brought together appeared originally as detached articles in the pages of the Theosophical Review, written, however, with the object of demonstrating to students of Theosophy that a definite design could be traced beneath the apparently disconnected mystic doctrines held by the many occult brotherhoods, heretic sects and mystic associations which cluster so thickly together as we glance along the historical by-ways of religious thought during the Middle Ages, that object becomes clearer when they appear as they do now in closer juxtaposition. To those who wish to understand the reason of this steady recurrence of mystic tradition in every century, these studies may be of some use.
