

Your Guide to Subtraction Flash Cards: Sorted Plus 10 Shuffles (Fast Math Workout Book 2)

Avoid these 6 Mistakes When Studying Math Facts

Spending more than 20 minutes per day studying with flash cards

Not practicing every day

Shuffling the whole deck and going through the whole deck before starting again

Studying with the flash cards in order

Going through each flash card and making up tricks to remember different problems

Using discount store flash cards

Learn about several more mistakes and what to do about them in the first 15 pages of Your Guide to Subtraction Flash Cards!

Declining math grades. Bad test scores. Incomplete homework.

At one time or another in a students math career, flash cards seem like the obvious next step. The problem is that most parents Ive met and students Ive tutored dont like studying with flash cards. So they grab a set of flash cards when theyre at the store and go through them one by one. If the student or parent has never really liked math, then this process can be torture. The challenge is that studying incorrectly actually prolongs the agony and can further undermine a students confidence. The right flash cards in the right format with a focused study goal can make all the difference.

In Your Guide to Subtraction Flash Cards - more than just flash cards!

7 Math Study Goals

256 unique problems in five groups

Over 3,000 pages of flash cards

1 problem per page- full size problem without the answer

Full size problem with the answer

Five group shuffles

Five combined group shuffles

Problems from 0 - 0 = 0 to 30 - 15 =

547 pages on how to study with flash cards

13 different flash card exercises

Stuyding with Flash Cards should have two outcomes: building knowledge and building confidence.

From the Quick Start Guide: Someone who has knowledge without confidence cant or wont share what they know, while someone who has confidence without knowledge wont get very far. Knowledge

and confidence together at the same time create limitless possibilities! Each part of this study guide is designed to create daily success. The Quick Start Guide helps you get studying right away. The 13 different exercises prevent study sessions from getting stale and boring. Tips and tricks for studying with flash cards make study time more productive and more efficient. Different groups of problems with many different shuffles helps maintain focus. If you buy now you can start studying in less than 5 minutes. You may also want to check out the rest of the Fast Math Workout™ series to add to your collection. Fast Math Workout™ Flash Card eBooks This book is part of a collection of 147 books (and counting).
