

## Behind the Goal - Memories of Bristol City's East End

Behind the Goal tells the story of Bristol City's East End in the words of fans who have watched Bristol City from its terracing since its rebirth in 1928. With the demolition of the structure in 2014 to make way for a new state of the art stand, Neil Palmer along with Bristol City have decided to mark its passing with stories from fans and players who have loved that part of Ashton Gate for years. Whether it was the covered end, The East End or The Wedlock stand, through the decades this humble terracing has been part of the very fabric of the club and its supporters. The book is an oral history with recollections, opinions and impressions taken from emails, telephone conversations, interviews and letters conducted by Palmer with players and fans over a 12 month period. As the modern game changes, this time capsule of nostalgia will appeal to any supporter who remembers how the game used to be.
