

# Forex Trading For Maximum Profits : The Greatest Little Known Secret Making Forex Millionaires: Lose The 9-5, Live Anywhere, Join The New Rich

Forex trading is not all it is cracked up to be. The picture painted by the gurus and the brokers has only one side, a pink one, and is missing the real feeling and pain that a average retail trader goes through until a success is reached. I can feel the pain in the Forex Community and the purpose of this book is to even out the planes. Here is what you can expect to learn and master after practicing the concepts in this book. Learn to move with the winners and tailgate on their profits(this strategy alone is worth the 10 bucks) How to avoid and react to The little dirty tricks of your broker

The little known strategies of the successful Forex traders What are the best times to trade The best ways to trade any strategy(this little detail can make or break your trading record) Most important and little known price levels, that deliver profits at any currency pair. How to profit from Weird Crowd Psychology( when used as suggested in the book this one is a massive cash pooler) The one, little known way to enter the Forex market and have the price guaranteed to move your direction. The well guarded price action strategies of the Forex Banks and Foreign institutions. How not to use price action and when to be cautious about pulling the trigger, if a price approaches a certain deadly level. Which are the favorite price patterns of the experienced traders How to avoid having spread slips of as much of a 100 pips, and have your profit and account swallowed by your broker(most of the retail traders have no clue, what I am speaking about) What are the most important factors, observed religiously by all the shakers and movers, and how not to break the rules of alliance that can cost you your account. What are the sneaky falls break outs, practiced by the most of the platforms and how to fight the FOREX BOTS. Strange practices of your broker, that causes your stops to be hit before your entries(this is a must know before you open a account with any

platform) The above strategies and lessons are not lessons from a book or science projects. These are the hard earned lessons from the Forex School of hard knocks. During the years I have met, and traded with and chat in expensive paid forums, with multitude of successful traders. This book is what I find to be the essential and most important material you will ever need, to trade Forex Market. Learn and master the strategies of the winners and become a winner. On the other hand you can spent countless of hours and thousands of dollars, staring at your screen, until your eyes leak out and still not come to the priceless lessons in this book. Make yourself a favor and invest in your education and buy this book. You are just a couple of mouse clicks away. See you on the other side.
