

# How to Create a Successful Adoption Portfolio: Easy Steps to Help You Produce the Best Adoption Profile and Prospective Birthparent Letter

How do you create an adoption portfolio that will show prospective birth families why you are the perfect adoptive parent for their child? Do you know which pictures to include and which to leave out? Do you really understand what prospective birth parents care about? This is a step-by-step guide to creating a portfolio which will reflect your personality, make a strong positive impact and encourage the right birth family to choose you. Madeleine Melcher shares the secrets she has discovered over years of creating successful portfolios, profiles and prospective birth parent letters. She combines simple and effective design ideas and tips for writing and layout with a deep understanding of how portfolios work. Importantly, this book also draws extensively on the experiences of birth mothers and the professionals who support them to examine what they are really looking for, featuring questions which prospective birth mothers will want to see answered in your portfolio. From text to design, this guide will give you the confidence to create a portfolio that sets you apart. It is essential reading for prospective adoptive parents, as well as adoption attorneys and adoption agencies advising those hoping to adopt.
