

Victor and the Sun Orb

Victor, a fairy prince of Solandia, should enjoy a carefree life. But from an early age, he finds himself very busy. He learns complex magic and martial arts. He's even taught how to live in a human world. That's because his parents, King Godfred and Queen Magenta, know about a mortality spell that was cast on their son on the very day of his baptism. A dark, hooded figure with eyes that burn like coal is to blame. Victor's parents know that on his thirteenth birthday, their beloved son will be forced to leave Solandia and live with humans, perhaps never to return. To find an antidote to the spell cast upon him as an infant, Victor must retrieve the mysterious sun orb, a source of magical power now in the hands of the dark, hooded figure. As he sets upon his quest, a war between the forces of light and darkness erupts. Good fairies wage battles with bad fairies, even as the power in their wands fades. Enter a world of magic, and join the fairy prince as he fights for family, love, and friendship in Victor and the Sun Orb.
